

Nanuva ingredients dehydrates Maqui berries (*Aristotelia Chilensis*) using a modern and innovative vacuum drying process, it doesn't use transporters (maltodextrin), preservatives or sugar, making this product a 100% natural superfood.

HEALTH BENEFITS

MAPUCHE MEDICINE

Nanuva's Maqui powder helps detoxifying the body by neutralizing the free radicals. When the body detoxifies, energy levels raise and the digestive system is capable of working better, thus contributing to an optimal weight control. Likewise, Nanuva's Maqui powder has a number of health benefits, since it contains high levels of anthocyanidins, specifically Delphinidins.

- Gluten free 
- Non-gmo 
- Non-irradiated 
- Wild Mapuches harvest 
- Allergen free 
- Super innocuity** 
- Low temperature dried and mill 
- Non-extract 

Maqui Select ORAC: 40.000 - 42.500 (umol ET/100g MTA) • **Polyphenols:** 4.700 - 5.000 (mg EAG/100 g MTA).
Maqui Super Select ORAC: 43.000 - 48.500 (umol ET/100g MTA) • **Polyphenols:** 5.150 - 5.750 (mg EAG/100 g MTA).
Maqui Plus ORAC: 57.350 - 61.200 (umol ET/100g MTA) • **Polyphenols:** 5.800 - 6.750 (mg EAG/100 g MTA).

REDUCES

CELL DEGENERATION RISKS

Degenerative diseases, such as heart diseases, cancer, diabetes and neurodegenerative diseases like Alzheimer, originate from cronic inflammation of the human body due to the damage caused by free radicals.

Free radicals are generated daily in our bodies by normal metabolic processes, exposure to toxic enviroments, consumption of non-healthy oils, refined foods or stress conditions, and become a problem when generated in excess.

The way to fight the damage caused by free radicals is consuming antioxidant-rich foods on a daily basis. Nanuva's Maqui powder contains an incredible amount of "Delphinidin" anthocyanins and poliphenols, which have a powerful anti-oxidant and anti-inflammatory properties that can neutralize free radicals in our body, reducing the risk of degenerative damage in our cells.

RELIEVES

JOINT PAIN

The anti-inflammatory effects of the Maqui berries help to reduce the secretion of COX-2, which is one of the best enzymes responsible for tissue pain problems.

ANTIDIABETIC EFFECTS

AND WEIGHT CONTROL

Maqui consumption has been related to insulin and production and prevention of fat cells generation. The former helps to regulate blood glucose and the latter to a better weight control due to maqui's thermogenic properties.

STRENGTHENS

THE IMMUNE SYSTEM

Consuming the anti-oxidant-rich Nanuva's Maqui powder helps protecting the body against alien agents that intend to attack the immune system.

DELAYS

SKIN CELLS AGING

Nanuva's Maqui powder provides an excellent dose of natural anti-oxidants that help preventing the ravages in the skin structure as well as the accelerated aging caused by excess of free radicals.

REGULATES

CHOLESTEROL AND TRIGLYCERIDES LEVELS

Cholesterol oxidation plays an important role in heart diseases, including heart attacks and arteries clogging and hardening. Nanuva's Maqui powder prevents this effect.

MOISTURES

THE EYEBALL

Consumption of maqui berry promotes tear production, which helps to prevent eye burning and irritability, and, thus, eyestrain and red eyes.
